Name: Bonners Ferry Levee Rehabilitation

ERRATUM: This erratum addresses the Notice of Preparation PL-07-15 concerning preparation of an environmental assessment (EA) for a levee repair on the Kootenai River, near the City of Bonners Ferry, Boundary County, Idaho, as proposed by the U.S. Army Corps of Engineers, Seattle District (Corps). The corrected information is as follows:

Project construction is scheduled during September and October, which is later in the year than the state-approved in-water work window (which runs between August 1 and August 31). The construction period will avoid periods of greatest sturgeon vulnerability and highest expected use.
