

SPECIAL NOTICE

**U.S. ARMY CORPS OF ENGINEERS,
SEATTLE DISTRICT**

**WASTE WATER TREATMENT PLANT (WWTP) PROJECT TO SERVE
JOINT BASE LEWIS-MCCHORD, WA – INDUSTRY DAY**

27 November 2012

The U.S. Army Corps of Engineers, Seattle District would like to invite all potential Prime Contractors (in NAICS 237110) and Subcontractors (in any/all related NAICS) to participate in an Industry Day specific to our upcoming Waste Water Treatment Plant (WWTP) Project to serve Joint Base Lewis-McChord, WA.

This event is structured to allow presentations on the scope and schedule of the project (by project and contracting staff) as well as times for both potential Prime Contractors and Subcontractors to give 10 to 15 minute (TBD) public capabilities briefings to project staff and the other contractors in attendance.

The purpose of this Industry Day is to provide details on the WWTP project as well as timelines for the contracting effort and execution of the project. The secondary goal is to help facilitate contractor networking and potential team building opportunities. This session is NOT a “how to do business with USACE” event, it is very detailed to this specific project.

A full description of this project can be found in the [Presolicitation](#) notice (W912DW-13-R-0001) on FedBizOpps.gov
