Memorandum for: RECORD

Subject: VOLUME CORRECTION - Dredging at Port of Everett Marina, 10th Street Boat Launch and Jetty Island Boat Dock, SDM dated 3 October 2000, PN # 2000-2-01177.

Subject SDM contained an error in the amount of material found suitable by the DMMP program for open water disposal. Corrected volumes are as follows:

Total project volume should be 49,340 cy, rather than the 42,840 cy listed in Paragraphs 1 (Introduction) and 5 (Suitability). This total volume includes 42,840 cy from the Everett Marina; 3,500 cy from 10th Street Boat Launch, and 3,000 cy from the Jetty Island Boat Dock. The entire volume (49,340 cy) is suitable for open water disposal.
