

US Army Corps
of Engineers
Seattle District

Special Public Notice

Regulatory Branch
Post Office Box 3755
Seattle, Washington 98124-3755
Telephone (206) 764-3495
ATTN: David J. Martin

Public Notice Date: March 26, 2013

ANNOUNCEMENT: The U.S. Army Corps of Engineers, Seattle District announces a change in the telephone numbers for staff in its Southwest Washington Regulatory Field Office (SWRFO) in Vancouver, Washington. There have been no other changes. However, we are using this opportunity to provide the address of the field office, SWRFO staff e-mail addresses, and a reminder about submitting Department of the Army permit applications to Seattle District.

The new phone numbers for Seattle District regulatory project managers based at the SWRFO (e-mail addresses have not changed):

<u>Project Manager</u>	<u>Telephone</u>	<u>E-mail</u>
Danette Guy	(206) 316-3048	danette.l.guy@usace.army.mil
Steve Manlow	(206) 316-3047	steven.w.manlow@usace.army.mil
Peter Olmstead	(206) 316-3049	peter.d.olmstead@usace.army.mil

SWRFO address: U.S. Army Corps of Engineers, Seattle District
 Southwest Washington Regulatory Field Office
 2108 Grand Boulevard
 Vancouver, Washington 99661

SWRFO project managers serve as Seattle District's primary regulatory program points of contact for the following five southwest Washington counties:

- Clark: Steve Manlow
- Cowlitz: Danette Guy
- Klickitat: Peter Olmstead
- Skamania: Peter Olmstead
- Wahkiakum: Danette Guy

Department of the Army permit applications for proposed activities in southwest Washington should continue to be mailed to our main office in Seattle at the address above. We strongly encourage applicants to include in their application package a CD/DVD containing all permit application materials, including (as applicable) the JARPA, wetland delineation, biological assessment/evaluation, cultural

resource report, mitigation plan, and project drawings. Electronic versions of these documents can expedite the application review process and facilitate required coordination with other regulatory and natural resource agencies. Due to e-mail size limitations in our system, we do not recommend e-mailing your application package to us.

The U.S. Army Corps of Engineers, Seattle District regulates activities in waters of the United States, including wetlands, throughout the State of Washington under the authority of Section 404 of the Clean Water Act, Section 10 of the Rivers and Harbors Act of 1899, and Section 103 of the Marine Protection, Research and Sanctuaries Act. For additional information about Seattle District's Regulatory Program, please visit our webpage at: <http://www.nws.usace.army.mil/Missions/CivilWorks/Regulatory>.
