	ITIONAL COMMENTS TO SUPPORT JD: e no waters of the U.S. in the review area because: The review area consists entirely of uplands.
excl to re	Additional explanation: Per the preamble of the 1986 Corps implementing regulations for 33CFR328.3, the identified waters in the review area have been ermined on a specific case-by-case basis to not be waters of the U.S.: A non-tial drainage and irrigation ditch excavated on dryland An artifically irrigated area which would revert to upland if the irrigation ceased An artificial lake or pond created by excavating and/or diking dry land to collect and retain water and which are used dusively for such purposes as stock watering, irrigation, settling basins, or rice growing An artificial reflecting or swimming pool or other small ornamental body of water created by excavating and/or diking dry land etain water for primarily aesthetic reasons A waterfilled depression created in dry land incidental to construction activity and pits excavated in dry land for the purpose of sining fill, sand, or gravel unless and until the construction or excavation operation is abandoned and the resulting body of water sets the definition of waters of the U.S. Additional explanation:
	The water is a waste treatment system designed to meet the requirements of the U.S. (33 CFR 328.3(a)(8)) Additional explanation:
