

Small lock closed March 16-30 for maintenance

SEATTLE--The small lock at the Hiram M. Chittenden Locks in Ballard will be closed from March 16 through March 30 for yearly maintenance, according to the Seattle District, U.S. Army Corps of Engineers, which operates the Locks.

The large lock will remain open for boat traffic throughout this period. Boaters should be prepared to use the large lock with appropriate equipment and crew.

The scheduled repairs to the small lock are part of an annual general maintenance program.
