SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

1. The required response date/time has changed from 29-Sep-2004 04:30 PM to 30-Sep-2004 10:00 AM.
2. The following questions are included in this amendment for information purposes only and do not alter the original project specifications. These questions and answers will not become a part of the contract.:

Q: When contract is awarded will the vendor be required to have all materials installed within 30 days?

A: *No*

Q: ITEM 1 ROLLING BENCHES It is assumed the Fort Lewis Greenhouse will have a concrete slab as the floor. Will the holes be "cored" and ready for placement of legs?

A: *The floor is not solid concrete. There is a ~6' concrete pathway through the center of the building. If the benches has 6 legs, then 2 legs would mount on the concrete pathway and the other 4 feet will be set on concrete filled footings (none of which are pored). There are no holes predrilled for the bench legs and no leg footings. I hope this is clearly stated.*

Q: ITEM 3 Where and how is the Cedar Storage unit to be installed?

A: *Where - between the greenhouse and the chainlink fence, closest to the fence. How - somesort of "duck-bill anchor system." We do have concrete pads that can be used to set the unit on or around. This is an option, not a necessity.*

Q: ITEM 4 Benchwarmer Kit. Do you want separate temperature controls for each bench?

A: *No*

Q: ITEM 4 Miscellaneous Supplies:

Six 6' Rolling Benches: Are these the same type as the "Over-Easy" benches specified in item 1?

A: *Yes, they are the same and are incorrectly part of the misc supply list.*

Q: Soil Tumbler: What Capacity are you looking for? 23 cubic feet (650 litres) or 12 cubic feet (340 litres)?

A: *12 cubic feet is perfect.*

(End of Summary of Changes)
