

Wetland Mitigation Guidance Update

Focus Groups

- Do you develop or review wetland mitigation plans and proposals?
- Are you involved with designing, constructing or monitoring wetland mitigation sites?
- Do you have ideas for improving wetland mitigation?

Then we'd like to hear from YOU!

You are invited to help us improve state and federal guidance on wetland mitigation in Washington.

The Department of Ecology, U.S. Army Corps of Engineers and U.S. Environmental Protection Agency are updating our joint wetland mitigation guidance. The updated document will include both technical and policy guidance. Our goals are to improve the success of wetland mitigation and provide clearer policy guidance to streamline regulatory review.

We are holding two **Focus Group meetings to gather public input** and we'd like to hear from you. Join us and tell us your ideas for improving and streamlining wetland mitigation planning, permitting and development.

March 11, 2003, Seattle

9 a.m. - 12 p.m. **Galaxy Room**
The U.S. Army Corps of Engineers*
Seattle District
4735 E. Marginal Way South
