

Reference Biological Evaluation Lower Columbia River Programmatic Specific Project Information Form

U.S. Army Corps of Engineers
Seattle District, Regulatory Branch

Use this form to notify the U.S. Army Corps of Engineers, Seattle District (Corps) of proposed work that appears to qualify to use the Lower Columbia River (a.k.a. SLOPES II) programmatic Section 7 consultation between the Corps and the National Marine Fisheries Service and/or U.S. Fish and Wildlife Service to comply with the requirements of the Endangered Species Act (ESA) and/or Magnuson-Stevens Fishery Conservation and Management Act. (NMFS Programmatic Reference 2003/00850).

Date: _____

Corps Reference No. _____

Applicant: _____

Agent: _____

Address: _____

Address: _____

Location(s) of activity:

Section: _____ Township: _____ Range: _____

Latitude: _____ Longitude: _____

Waterbody: _____ County: _____

Listed or proposed fish species present: _____

Description of the proposed work: In the space below, please provide descriptions of the work to be accomplished, structures to be installed or constructed, type of material(s) to be used, anticipated construction techniques, and construction machinery to would be used. Additional sheets may be attached to this form if necessary. **Attach drawings that clearly illustrate the location, nature, and extent of the proposed work.**

Dates between which the proposed work would occur: These dates must normally fall within the currently approved work window for the waterbody that would be involved with the proposed work.

The proposed work would occur between _____ and _____

Type of Department of the Army permit(s) requested: _____

From the list below, select the programmatic consultation activity that applies to the project:

Lower Columbia River programmatic consultation

- | | |
|---|--|
| <input type="checkbox"/> Streambank protection | <input type="checkbox"/> Over-water and in-water structures |
| <input type="checkbox"/> Stream and wetland restoration | <input type="checkbox"/> Minor discharge and excavation |
| <input type="checkbox"/> Water control structures | <input type="checkbox"/> Maintenance dredging |
| <input type="checkbox"/> Road construction, repair, and improvement | <input type="checkbox"/> Return water from upland disposal sites |
| <input type="checkbox"/> Utility lines | <input type="checkbox"/> Site preparation for construction of buildings and related features |

How does the project differ from the requirements of the programmatic consultation and how would these differences impact ESA-listed species or designated critical?

I hereby verify that I have read the requirements for using the programmatic consultation activity selected above and that the proposed work will comply with all applicable requirements except as described above should Department of the Army authorization be issued for this work.

Signature of Applicant: _____
