

38th Sediment Management Annual Review Meeting

Draft Agenda

May 6, 2026

USACE Seattle District Headquarters and Teams ([Register here](#))

8:30 am	Arrival and Check-in	All times given in PDT; Q&A period included for each presentation
MORNING SESSION		
9:00 am	Welcome and Logistics	Brian Hester, USACE
9:10 am	Opening Remarks	Brian Hart, USACE
9:15 am	Toxics Cleanup Program Updates: Sediment Policy, Legislative, and Budget	Chance Asher, Ecology
9:45 am	PFAS and Sediment Policy Workshop Workshop Goals: Present findings on PFAS in the aquatic environment and discuss how Ecology should address PFAS at sediment cleanup sites. Presentation: PFAS basics; fate and transport; nature and extent in sediment (locally and nationwide); PFAS compounds associated with bioaccumulation, benthic toxicity, sediment and tissue; how Ecology has addressed other persistent, bioaccumulative, and ubiquitous chemicals; our regulatory tools to address PFAS; and potential hurdles. Follow-up discussion: Q&A and hear ideas on how Ecology should address PFAS at sediment sites.	TCP, Ecology Jason Conder, Geosyntec Zach Pandelides, Geosyntec
11:45 am	Lunch (food trucks will be available – specific trucks TBD)	
AFTERNOON SESSION		
1:15 pm	Dredged Material Management Program Year-In-Review DMMP Port Gardner Monitoring Summary EIM Clarification Paper Update	Sarah Benson, USACE
1:55 pm	DNR Disposal Site Updates	Shannon Soto, DNR
2:00 pm	European Green Crab Updates	Dr. Brian Turner, WDFW Jessica Hausman, Ecology
3:00 pm	Beneficial Use of Dredged Material Updates	Abby Barnes, DNR
3:35 pm	Closing remarks and adjourn	Brian Hester, USACE
