- Provide profile view site-specific drawings for detailed review, including:**
- Existing and proposed conditions along the shoreline at your project location
 - Distances of proposed structure to existing water line; distance from water line to bottom
 - Length (ft), height (ft) and type (I.e., concrete, wood, etc.) of structure
 - Locations and type (material) of pilings
 - Elevation of existing bottom and shoreline above/below datum (NGVD, etc.)
 - Water level (OHW, MHW, High Tide Line) and date of observation and/or datum
